RB

RAY BOWERS
SOFTWARE ENGINEER

OBJECTIVE

I strive to be in an environment that will foster and grow my engineering capabilities.

EXPERIENCE

IT SUPPORT TECHNICIAN • AIP • 04/2018 - PRESENT
Duties include working directly with customers to resolve computer related issues, management of employee access and installation of electronic tools for businesses while working in a team environment.

CUSTOM FRAMER • HOBBY LOBBY • 10/2014 – 04/2018
Responsible for helping customers decide on products, assembly of framing projects, use of job-related tools, and management of multiple customer projects according to specific deadlines.

SKILLS

I am proficient in developing software architecture and working with computer systems. I have excellent time management and a strong ability to meet deadlines.

EDUCATION

BS SOFTWARE ENGINEERING • MAY 2020 • ARIZONA STATE UNIVERSITY
Current 3.4 GPA. Studies focus on mathematics, software architecture, and computer systems. Senior capstone project consisted of designing and implementing an Alexa voice user interface skill in JavaScript for Amazon.
